Title: [Research and Technical Assistance Related to Severe Accidents in Nuclear Power Plants](#)

Description: The purpose of this acquisition is to acquire support in (1) conducting research in severe accident phenomena, in particular, those phenomena where residual uncertainties remain in light of Fukushima, and reduction of such uncertainties is warranted to address high priority Near-Term Task Force (NTTF) recommendations; (2) providing technical assistance to the NRC related to post Fukushima safety and severe accident research; and (3) developing and maintaining a repository of knowledge in severe accident research. The anticipated period of performance is 5 years from date of award

Acquisition Method: This is a competitive procurement that will be issued using FAR Part 15 procedures. A solicitation will be released on, or about, October 18, 2015.

Title: [Visa, Passport, and Courier Services](#)

Description: The NRC Office of International Programs (OIP) is responsible in assisting the NRC personnel with obtaining visas and passports services to support NRC employee traveling to foreign countries. Courier services include pick-up the passports, passport applications, visas, and visa applications (hereinafter referred to as "travel documents") from the NRC, delivery to the appropriate foreign embassy or the Special Issuance Agency (SIA), within the U.S. Department of State's Bureau of Consular Affairs, and return delivery to the NRC. Services includes reviewing the travel documents for completeness, reporting omissions or errors, expedited service for rush orders, monitor the travel document status at embassies and providing NRC with current entry requirements of foreign countries, including up-to-date visa application forms. These contractor services are for official US passports
